

More Opportunities for the More Able

At Dene Community School, More Able and Talented students in Key Stage 3 have been taking part in extra-curricular activities after school. Every school term is something new; this term is History.

Although the session has just started, the group are going to debate who the most influential woman is. So far, they have been asked to research British influential women and chosen the top ten.

Over the course of 5 weeks, they will look into each woman's life and work until they have ended up with their most influential woman.

Telana, one of Year 7s MAT students, commented, "I am really enjoying stretching myself and finding out more about a range of different topics."

The group, which takes place on Wednesdays, is designed to stretch and challenge students, allowing them to explore new and different areas of the curriculum. They also gain skills during the sessions, such as debating and public speaking, which helps students to increase their confidence.
